About Open Africa Open Africa is a social enterprise that works with small businesses to establish rural tourism routes that offer travellers authentic experiences, while generating income and jobs for local people.

This save time, and the peel produced is easily handled. Fossilised Ichthyocera  
How might a scholar working in such a field help us to view established masterpieces differently? Peels should be stored in small glass bottles for each section or each different grade of etching. Before etching, the surface of the plug exposing the fossil section is finished by grinding and polishing.

This specimen is placed in the center of the prepared glass cylinder. Hokkaido  
cured polymers are transparent and this property is convenient during the abrasion procedure.
