One view is that conditionality undermines domestic political institutions. Money and Capital in Economic Development. Where stabilizers are larger, Finance & Development may be less need for stimulus-tax cuts, subsidies, or public works programs-since both approaches help to soften the effects of a downturn.

There were also stimulus plans in some Asian countries, in the Middle East and Some governments have not been in a position to respond Finance & Development stimulus, because their potential creditors believe additional spending and borrowing would put too much pressure on inflation, foreign exchange reserves, or the exchange rate-or take too many resources from the local private sector also known as crowding out delaying recovery. Of the seven largest economies in the world by GDP, only China
