Many countries, in the name of the free market, promote gross violations of human rights, and undermine the right to subsist of those on whose labour competitive advantage often rests. This situation is beneficial to governments, regardless of whether or not they are democratic, because they create conformist citizens with uniform models of life, particularly in terms of consumption and leisure, who are rarely prepared to raise their voices Cities and Urban Life, the system, especially if they are burdened with the responsibility of paying long-term mortgages, as occurs in Spain.
